## FLEET MANAGEMENT

---

Over the years we have seen numerous companies overpay and exhaust valuable resources on their corporate and commercial vehicle needs, only to end up with subpar solutions. At Lockhart Consulting our goal is to make automotive leasing, financing, and sales cost efficient and easy to understand. Whether you require a vehicle for executive transportation or a commercial truck for the job site, Lockhart Consulting has you covered. We search for the best deals to meet your car and light truck requirements.

When it comes to heavier commercial vehicles, including medium and class 8 trucks, we work directly with manufacturers and aftermarket body companies to build the right vehicle for the job by incorporating all the key components, including engine, transmission, suspension, drive-line, and aftermarket body. If your current fleet no longer meets the fast changing requirements of your growing business, we will help you to remarket your vehicles to a network of pre-owned retailers and independent buyers to secure the higher return on your investment.

“**LOCKHART CONSULTING TAKES CARE OF OUR FLEET SO THAT WE CAN STAY FOCUSED ON WHAT WE DO BEST, INCREASING PROFITABILITY AND GROWING OUR BUSINESS.**”
